Thought for the Week: True friends are those who really know you but love you anyway. Edna Buchanan

ANNUAL MEETING

The Annual meeting for the Knight Civic Center Board will be held Monday, June 17, 2024 at 6:30 pm in the meeting room with the regular meeting to follow.

MEETING RESCHEDULED

Warren Town Council meeting will be held June 18th at 6:00 at which time a Public Hearing is scheduled for the proposed water rate increase. The Public Hearing will be followed by a regular meeting of Town Council. As for the water rate increase of 25%, 10% of it is the final scheduled increase for the 2022-2023 water upgrade project of towers, water treatment plant, and wells, and was the only scheduled increase until the water emergency on Wayne Street. An additional 15% of the increase is due to the need to meet requirements to procure an emergency loan from Indiana Finance Authority to cover the cost of the project set at \$1,040,000. Totally unexpected. More information will be posted later so that you can estimate your cost.

EverFresh will be starting work on the former Golfo site. We sure welcome them to the Warren Area. We are fortunate to have the businesses we have in Warren and Area with this being a very positive addition.

**A FATHER'S DAY MYSTERY**

By Daris Howard

Cindy excitedly came into the sewing room where her mother was busy mending overalls. "Mom, guess what I got Dad for Father's Day!"

Janet looked up from her sewing and smiled. "My guess would be some new tool, probably a hammer."

"Oh, Mom," Cindy said. "You have no imagination."

"Maybe not," Janet said. "But I do know your father. And that's what he always requests for Father's Day."

"You can get him a hammer," Cindy replied. "I decided to be more creative. I got him some cologne."

Janet smiled. "Cologne. Really? I have bought your father cologne countless times, and do you know how many times he has worn it? A big fat zero, as far as I know. I have never smelled cologne on him once, and the cologne just mysteriously disappears. I figure he just pours it down the drain when I'm not looking."

"But I have one advantage you don't have," Cindy said.

"And just what would that be?"

"I'm his favorite daughter."

"You only think that because you're the youngest and the only one still at home, so he dotes on you a little bit too much," Janet replied.

"Nonetheless, I think he will wear cologne if it is a gift from me," Cindy said.

Janet shrugged. "If you can get your father to wear cologne, you'll be a miracle worker. But you definitely have my blessing to try."

Janet helped Cindy find the perfect wrapping paper for the gift. When Father's Day came, Cindy could hardly wait for her father to open it. When he did, his enthusiasm and gratitude seemed boundless.

"Do you like it?" Cindy asked.

"I love this stuff," her father replied. "It is wonderful."

Cindy whispered an "I told you so" to her mother, who, in turn, whispered back, "We'll see."

After a couple of weeks had gone by, and Cindy had not had any indication that her father had worn the cologne, she asked her mother about it.

"I don't know, Cindy," Janet replied. "I haven't seen it since the day you gave it to him. Maybe it has disappeared to the same mysterious place where all the others have gone."

"But do you know if he has worn it?" Cindy asked.

"I haven't smelled it, if that's what you're asking," Janet replied.

At dinner that evening, Cindy asked her father if he enjoyed the cologne.

Her father nodded. "Absolutely. It's probably my favorite kind."

After dinner, as Cindy helped her mother wash the dishes, they talked about it.

"Mom, how could Dad say he loves the cologne, and yet we never smell it? Do you think that he took it to his office and only uses it at work? Is he trying to impress someone there?"

## ESTATE AND SUCCESSION PLANNING FOR THE FAMILY FARM

Registration is now open for Indiana Agricultural Law Foundation's (INAgLaw) 2024 Estate & Succession Planning for the Family Farm workshop. The annual program is targeted toward family farmers and attorneys and will be held via virtual webcast on Friday, July 19 from 9 a.m. to noon Eastern Time. The webinar is free of charge for all attendees.

According to the U.S. Department of Agriculture's (USDA) 2022 Census of Agriculture, 51% of Indiana producers say they are involved in estate planning or succession planning, with the average age of an Indiana producer being 56 years old.

"It's critical that families create their succession plans before they're needed," said John Shoup, director of INAgLaw. "With only about half of farmers in Indiana stating they have some sort of plan, it is evident that the conversation of transitioning the farm to the next generation can be difficult to navigate. This program is designed to encourage family members to have intentional conversations around farm succession and provide tools to develop plans for a successful transition."

The 2024 session topics and speakers include:

\* Farm Succession Planning – The Basics. Presented by Clint Fischer, Ribstein & Hogan Law Firm.

\* Hot Topics in Farm Estate Planning. Presented by Dan Gordon, Gordon & Associates, P.C.

\* Protecting Your Family's Inheritance from Long-Term Care Costs. Presented by Michelle Adler, Gordon & Associates, P.C.

\* Marriage and Protecting Farm Assets. Presented by Jennifer Hughes, Church Church Hittle & Antrim.

"The session topics provide practical information from experts in their fields on a variety of different subjects that can arise during the

succession planning process," explained Shoup.

The virtual workshop is open to anyone interested in understanding the importance of estate and succession planning to their business. Participants will walk away with valuable tips for getting started. Attendees also will have time to ask questions after each presentation.

Registration for the event is required. Attendees may register at [www.infb.org/events](http://www.infb.org/events) through Wednesday, July 17. CLE credits are being sought for attending attorneys.

Sondra closed our meeting with prayer until we meet next on Tuesday July 2, 2024

### JACKSONVILLE & TREASURE ISLAND TRIP DAY 10

by Larry Ryan  
It was 48 degrees when we stepped outside our Bilmar Hotel room to head for breakfast at Sloppy Joe's Restaurant. There was only slight confusion with the order this morning. French toast was a likable choice for my wife. I stayed with the usual fried eggs menu. During this period, we visited with fellow travelers from Huntington and enjoyed re-living experiences about several mutual travels.

An abundant number of our tour group gathered prior to 11 am in front of the hotel to be bussed to Publix, the local grocery store. We joined the group to check out something new. While waiting and visiting outside, I noticed a hotel sign that read, "No Parking: This Lift is for use of patrons with Physical Challenges only. Absolutely not to be used for Freight or a Toy!!" Did it mean, or as a Toy?? Our age group decided not to try to use it as playground equipment!

My wife and I browsed through the aisles of the busy grocery store and bought chicken wraps, a small bag of cheese pods, and crackers to take for tomorrow's lunch at the Ringling Brothers Estate in Sarasota. We even used a grocery cart to appear as local patrons.

Our tour shoppers returned at noon to Bilmar after an unexpected ride through a nice-looking, housing neighborhood of Treasure Island. There was no extra charge for that excursion. In our room, we lunched on breakfast leftovers.

The afternoon was spent sunbathing on the beach with beach chairs which were probably the same ones that we had commandeered previously. Once again I waded in the surf and added to the seashell collection. Since the windy conditions had extended to this afternoon, a one hour exposure was the limit. However, I stayed outside longer after discovering that

being closer, the hotel building reduced the breeze's intensity. I was safe there too. No young girls bothered a balding, old guy. After my thirty minute, sun ray exposure, I ventured back into our hotel room where a lonesome novel had to be rescued. Finished it too.

Next on the day's agenda was the evening meal at a local restaurant. After digging into the over-packed suitcase, we pulled out some of the excess clothing and readied ourselves for the 4 pm walk to "Gigi's Italian Restaurant." The slow walkers left the hotel ahead of the tour director and followed a prior, 'walker-user,' knowledgeable patron for the one and half block hike. The door to the eatery was locked and the owner informed us that it would stay that way until the scheduled, 4:30 reservation was honored! Our slow-walking leader parked his 'walker' on an unexpected, declining walkway and rolled back against an automobile. Neither his pride nor the vehicle was damaged. I think!

Our Italian choices were Lasagna and Manicotti along with the salad and seasoned bread. Desserts were strawberry cheesecake and tiramisu. Conversation with one individual was interesting and expressive. After enduring some more cool air on the return walk, the hotel room's thermostat was turned up. A TV basketball game concluded the day.

### ASK RUSTY - ABOUT SOCIAL SECURITY'S "GUARANTEED" ANNUAL COST-OF-LIVING ADJUSTMENT (COLA)

Dear Rusty: I've been reading a lot lately about speculation on what next year's benefit increase will be, and it seems like most of the experts are suggesting a range of 2.5% to 3%. My neighbor says don't worry about it, because there will always be some level of increase come January. It's guaranteed, right? Signed: Retired But Questioning

Dear Retired: You've brought up a common belief about the annual Social Security COLA, one that we hear often. Let's start with some background. Each year's COLA results from comparing the third quarter average Consumer Price Index (CPI-W) each year to the same average from the preceding year. The result of dividing the current year's average by the previous year's average produces the COLA for the following year. For 2024's adjustment, the 2023 third-quarter average was 301.2 and the comparable figure for 2022 was 291.9, producing the 3.2% benefit addition.

It's not always the case that the year-to-year CPI calculation produces a positive result, as was the case three times so far this century. As recently as 2016, for example, the 2015 third-quarter average was 233.3 and the comparable figure for 2014 was 234.2, producing a negative change. Fortunately for beneficiaries, Social Security law prohibits a negative COLA, so the negative result was ruled out and the COLA for 2016 was zero.

So, the rumor that there will always be a benefit increase in

January is untrue, although having only three zero COLA years since the start of automated adjustments in 1974 leads folks to assume there will always be a boost in the new year. The size of the adjustment fluctuates with economic cycles and has ranged from a high of 14.3 percent in 1980 to 0.3% in 2017 (excluding, of course, the zero years). Incidentally, the historical average since automatic COLAs began is 3.8%, so the 2024 adjustment of 3.2% isn't that far from the average.

### RUNNING A LOCAL RACE? HOW TO KEEP YOUR FEET HEALTHY

(StatePoint) Whether you're a novice jogger embarking on a couch-to-5K program or a marathoner serious about racking up finishers' medals, it's critical you take great care of your feet.

"Running is an amazing form of cardiovascular exercise, but because it's a high-impact sport that involves repeated trauma to the feet, everyone from long-distance runners to casual joggers is at risk for developing painful and debilitating foot conditions," says Bryce A. Paschold, DPM, FACFAS, a board-certified foot and ankle surgeon and a Fellow Member of the American College of Foot and Ankle Surgeons (ACFAS).

To help you identify signs of some of the more common foot issues associated with running so you can get proper treatment before the condition keeps you from the activity you love, the foot and ankle surgeon members of ACFAS are offering the following insights:

- **Plantar Fasciitis:** Plantar fasciitis is perhaps the most common complaint from runners. Presenting as heel pain, it's caused by inflammation of the ligament that holds up the arch. At the first sign of heel pain, Dr.

Paschold advises runners to stretch the calf, wear sturdier shoes and use arch supports. In some cases, icing and anti-inflammatory medications, such as ibuprofen, are helpful. Should pain continue, visit a foot and ankle surgeon, who might recommend custom orthotics, injections and physical therapy.

- **Neuromas:** A neuroma is a pinched nerve between the toes that can cause pain, numbness and a burning sensation in the ball of the foot. Overly flexible shoes are often the cause, and padding, orthotics or injections are usually effective treatments.

- **Tendonitis:** Runners can be sidelined with tendonitis if they ignore the warning signs

of this overuse condition. There are several forms of tendonitis that affect the Achilles and other areas, and all are treated with rest, icing, strengthening, stretching and anti-inflammatory medications, and sometimes with orthotics and physical therapy. Because overzealous training is usually the cause, especially among beginners, it's important to ramp up mileage and speed gradually. A running coach can tailor your training plan to your current fitness level.

- **Broken bones:** Don't assume that because you're able to run, your foot is not fractured. Signs of a stress

### NEW BABY AT OUABACHE

A baby American bison was born at Ouabache State Park yesterday, adding to the permanent herd that calls the park home.

This calf shares a birthdate with the last calf born at the park two years ago, also on June 6.

The bison's mother and the rest of the herd are keeping the calf close for now, so park staff do not know whether it is female or male.

The bison herd are a reminder of the area's time as a game farm before it became a state park in 1962. Guests can walk a relatively flat 1-mile gravel trail around the large, fenced bison exhibit. They can also view the area from the nearby CCC fire tower.

The gate fee at the park is \$7 per vehicle for in-state residents and \$9 per vehicle for out-of-state residents.

Ouabache State Park ([on.IN.gov/ouabachesp](http://on.IN.gov/ouabachesp)) is at 4930 E State Road 201 Bluffton, IN 46714-9313.

### LEWIS

Sharon R. Lewis, 85, of Huntington, passed away on Tuesday evening, June 4, 2024, at Parkview Huntington Hospital.

She had worked in accounting for many years at HK Porter and Hedges Business Machines and was business manager of Bottle Works for eight years.

Sharon also babysat over the years and was a foster mother to 75 children.

She was a 1956 graduate of Salamonie Township High School, Huntington County.

Sharon was a member of Central Christian Church.

She loved ballroom and square dancing.

The outdoors were Sharon's favorite place.

She was born on December 10, 1938, in Bluffton, a daughter of the late Russell and Olive (Freeman) Dalrymple.

Sharon was united in marriage to Jack E. Lewis on December 26, 1957, in Warren. He survives.

Additional survivors include two sons, Brad (Robin) Lewis, of Huntington, and Greg (Shelia) Lewis, of Roanoke; a daughter, Nikki Schilling, of Huntington; a sister, Judy (Jim) Ellerman, of Adrian, Mich.; seven grandchildren; seven great-grandchildren.

Sharon was preceded in death by her parents, a daughter, Jan Scher, a sister, Mary Sue Ruble, and an infant brother.

Visitation will be on Monday, June 10, 2024, from 11 a.m. to 1 p.m. at Myers Funeral Home, Huntington Chapel, 2901 Guilford St., Huntington.

Funeral service will be on Monday, June 10, 2024, at 1 p.m. at the funeral home immediately following the visitation.

### TUMBLESON

Steven "Steve" L. Tumbleson, 64, of Warren, passed away on Wednesday, June 5, 2024, at Stillwater Hospice, Fort Wayne.

He was born on May 3, 1960, in Huntington County to Gene E. and Jo Ann (Buzzard) Tumbleson.

Steve graduated from Huntington North High School in 1978, and continued on to Ball State University, Muncie, where he received his Bachelor of Science degree in Industrial Education in 1981 and his Masters of Arts in Industrial Technology in 1984.

He married Nancy Ruble on August 19, 1979, at Central Christian Church, Huntington.

Steve taught for Fort Wayne Community Schools, Whitko Community Schools, South Adams Community Schools and Ivy Tech State College, Fort Wayne.

Throughout the years, he worked in his family farm operation, MTM Machine and Tool, Huntington, Biomet, Warsaw, and PHD, Huntington.

Steve also owned and operated his own custom machining home business, Metalcraft LLC.

He enjoyed traveling, fishing, classic rock, playing guitar, machining, restoring vehicles, participating in car shows, off-roading in his Willys Jeep truck and sand rail, as well as traveling the country on his motorcycle.

Steve was a creative man, who was always generous with his wealth of knowledge in skilled trades and eager to pass it on to the next generation.

He was a helper, someone who made time for others and never met a challenge he couldn't conquer.

Steve was a great mentor to family, friends and former students, those who will never forget the knowledge shared, or how encouraging and inspiring their time was together.

Many days and nights he could be found in his shop, his happy place.

However, nothing on this Earth could make Steve happier than the time spent with his family. He loved every minute spent with his grandkids, making memories that his family will cherish forever.

Loving survivors include his wife of 44 years, Nancy Tumbleson, of Warren; daughters, Mandy (Bill) Russo, of Noblesville, and Stephanie (Eddie) Wielosinski, of Fort Wayne; son, Eric (Breanna) Tumbleson, of Roanoke; grandchildren, Ruby, Violet, Leah, Owen, Kraiger and Lane; his sister, Susie (Doug) Chapin, of Huntington.

Steve was preceded in death by his parents, Gene and Jo Ann Tumbleson, and his sister, Sherry Tumbleson.

In honoring Steve's wishes, a private celebration of life will be in "his shop" at a later date.

Those wishing to honor Steve's memory with a memorial contribution can feel free to give to Stillwater Hospice, 5910 Homestead Rd., Fort Wayne, IN 46814 or your favorite charity. If donations are made to your favorite charity, please forward first to the funeral home, P.O. Box 366, Warren, IN 46792, where a list of donations will be made for the family for thank you purposes.

fracture can include pain, swelling, redness and possibly bruising. If a fracture is suspected, remember to practice RICE (Rest, Ice, Compression and Elevation). You should also see a foot and ankle surgeon for an X-ray and proper diagnosis. Remember that like with other overuse injuries, stress fractures are often brought on by trying to do too much too soon. A general rule of thumb is to increase mileage by no more than 10 percent week to week.

- Lisfranc injuries: One misstep can lead to a sprain, fracture or dislocation of the Lisfranc joint. Consider wearing a headlamp in low lighting for surer footing. It is also a good idea to incorporate exercises into your regimen that will keep ankles and feet mobile and strong.

"While completing a marathon or even longer distance race may seem like the ultimate goal, it's wise for new runners to start with shorter races first. This conservative approach will keep your feet in good shape so you're able to run pain-free for years to come," says Dr. Paschold. "And of course, it's vital to listen to your body and seek care from a foot and ankle surgeon whenever a foot problem is suspected."

**ALMOST TWO-THIRDS OF HOME FIRES ARE DUE TO HUMAN ERROR. HERE'S HOW TO PREPARE**

(StatePoint) The threat of a home fire is greater than most people think. In fact, 40% of people believe they are more likely to win the lottery or get struck by lightning than experience a home fire, yet residential fires are the most common disaster people face in the United States, according to the American Red Cross. Here's how to help prevent fires, and how to prepare for the worst:

**Be Informed:** The National Fire Protection Association reports that 60% of home fires are due to human error. It's important to realize that humans are flawed. We forget things, we mess up, and we're often distracted. Accepting the fact that a house fire is a real possibility is an important step in the right direction. There are simple actions you can take to help prevent accidents. For starters, cooking is the leading cause of house fires. Never leave cooking unattended. Keep the cooking area free of flammable items such as potholders, towels and packaging, and always maintain a 3-foot safety zone free of pets and kids.

**Update Your Smoke Detection Devices:** While taking safety precautions is critical, having the latest fire safety technology can provide an extra layer of detection. Pioneers in the home safety field are providing new solutions that give homeowners more control over their safety, and like many technologies, today's smoke and carbon monoxide detectors have come a long way. In fact, the new Kidde Detect devices provide over 25% faster smoke detection (29% faster average smoke detection based on internal testing of smoldering wood fires for Kidde 9th Edition vs. leading competitor 8th Edition

products) that's three times more precise (in terms of consistency and range of obscuration rate, based on internal testing for Kidde 9th Edition vs. leading competitor 8th Edition products). This is a critical improvement, as statistics show that people have less than 2 minutes to safely escape a house fire, so every second counts.

Tech expert Marc Saltzman explains, "This technology is revolutionary because it features enhanced sensing technology to reduce nuisance alarms."

"Nuisance alarms," also known as false alarms, refer to when smoke alarms beep but there is no threat of fire. They are often caused by cooking activities and lead many consumers to disconnect their devices out of frustration. Upgrading your safety devices to Kidde Detect Smoke and Carbon Monoxide Detectors means your alarms are more likely to remain installed, so both you and your home can be as safe as possible. All Kidde Detect devices include a self-testing feature that when combined with routine manual testing and maintenance, ensures the alarm is always operating as expected (self-testing is not a substitute for a manual push test of the alarm), and the devices go above and beyond the latest UL 8th edition standards to meet 9th edition. Once you have your new

detectors, be sure to install them on every level of your home, in hallways, and both inside and outside every sleeping area.

**Be Prepared:** A working smoke alarm can double the chance of escaping from a home fire safely, but that's just the first line of defense. It's also important to create a home fire escape plan. Kidde's fire safety toolkit is a great resource to help families prepare for a fire emergency.

For more fire safety tips and information on how to upgrade your devices, visit Kidde.com.

While many people assume that a fire can't happen to them, the truth is that everyone makes mistakes. Having the right life-saving tools can help protect you and your family.

Janet smiled. "Cindy, what your father does with cologne may be a mystery, but the kind of man he is isn't. Your father is as simple a man as there is. He works hard and often says that the best men smell of sweat and dirt from hard work. I'm sure he doesn't wear it at his job any more than he wears it here. Perhaps it's just the thought of his daughter's love for him that makes it special to him."

That was not good enough for Cindy. It just ate at her not knowing what her father did with the cologne. So, she raised the issue with him again at dinner the next evening.

"So, Dad, why is the cologne I gave you one of your favorites?" Her father smiled. "Honey, that stuff takes rust off of bolts like nothing I know of. It would be absolutely perfect if it didn't stink so bad, but I guess anything good has to have some defect."

And thus, the cologne mystery was solved.
